Published Monthly  
By the ARIPO Office

# PERMANENT NOTICES

## Lusaka Agreement

The African Regional Intellectual Property Organization (ARIPO) was established by the Agreement on the Creation of the African Regional Intellectual Property Organization (ARIPO) (Lusaka Agreement) adopted on 9th December, 1976. The Objectives of the Organization are, *inter alia*, to promote, harmonize and develop the intellectual property system of the region.

Membership of the Organization is open to states members of the United Nations Economic Commission for Africa or of the African Union. States become members by depositing an instrument of accession to either the Lusaka Agreement or the Harare Protocol or the Swakopmund Protocol. The number of Member States of ARIPO is as reflected in the table on the right of this page.

## The Harare Protocol

Within the framework of ARIPO, a Protocol on Patents and Industrial Designs was adopted on 10th December 1982 (the Harare Protocol) and entered into force on 25th April, 1984. It has since been amended multiple times.

The Protocol empowers ARIPO to grant patents and register industrial designs and utility models on behalf of the Harare Protocol contracting states. All ARIPO Member States are signatory to this Protocol except Somalia.

## The Banjul Protocol

The Banjul Protocol on Marks was adopted on 19th November, 1993. This protocol, as well, has been amended several times. The Protocol empowers the Organization to register marks centrally for those ARIPO Member States which are its signatories (see table on this page).

## The Swakopmund Protocol

On 9th August 2010, ARIPO Member States held a diplomatic conference in Swakopmund, Namibia, at which they adopted a third ARIPO protocol called the Swakopmund Protocol on the Protection of Traditional Knowledge and Expressions of Folklore.

This protocol will come into force three months after six ARIPO Member States have deposited their instruments of ratification or accession, as the case may be.

Every member state of the African Union or of the Economic Commission for Africa is eligible for ARIPO membership. To join ARIPO, any such state may accede to the protocol. The accession will entail acceptance by that state of provisions of the Lusaka Agreement.

## Patent Cooperation Treaty

The Patent Cooperation Treaty (PCT) is administered by the World Intellectual Property Organization (WIPO). Since the Harare Protocol was linked to the PCT, the PCT has become important to the development of the patent system of all ARIPO Member States.

Besides benefits of membership in the PCT Union available from WIPO, ARIPO Member States become open to the flow of international patent applications filed through the PCT process. This has increased the number of patent applications filed in ARIPO Member States using the PCT-Harare Protocol route beyond those applicable under the traditional national route.

This increase means more income earned by the national offices. Consequently, some Member States no longer pay ARIPO membership contributions as income from the PCT-Harare Protocol route fully settles this.

## Accessions / Ratifications

Member State	Lusaka Agr	Harare Prot	Banjul Prot
<b>Botswana</b>	6.2.1985	6.5.1985	29.10.2003

## EDITORIAL

### Frequency of the Journal

*The ARIPO Journal: the Official Industrial Property Journal of ARIPO* is published monthly.

### Editorial Office and Mission

The Journal is published by the Secretariat of the African Regional Intellectual Property Organization as part of the industrial property process under the Harare Protocol and the Banjul Protocol. (For address of the ARIPO Secretariat, please see the section on 'General Contact Addresses' below.)

### Advertisements

Any person, natural or body corporate, may advertise in the Journal on a matter of, or relating to, intellectual property (such as vacancies, new appointments, meetings, etc.). The cost of advertisement is:

- a) US\$20.00 per half column, or part thereof, measuring size 8.5 cm (across) X 12 cm (depth);
- b) US\$35.00 per full column, or part thereof, measuring size 8.5 cm (across) X 24 cm (depth);
- c) US\$40.00 per half page and US\$70.00 per full page.

Concessionary rates are available at 20% reduced rate for any number of multiple insertions.

### Purchases and Subscriptions

The Journal is sold at US\$20.00 per copy. Subscriptions (inclusive of postage) are at US\$200.00 in Africa, and US\$220.00 for the rest of the world. All purchases and subscriptions can be made at the following address:

**Physical:**

Reception, ARIPO Office, No. 11 Natal Road, Belgravia, Harare, Zimbabwe.

**Postal:**

Director General, ARIPO, P.O. Box 4228, Harare, Zimbabwe.

### General Contact Addresses

Communication with, or information about, the Organization for any matter generally may be made or obtained at the following addresses in addition to the ones indicated above:

**Telephone:**

(+2634) 794065/6/8, 794074, 2918013/4.

**Faxsimile:**

(+2634) 794072/3.

**E-mail:**

<mail@aripo.org>.

**Website:**

## GENERAL NOTICES

### Data Flow Symbols

Symbols in the following table are ARIPO-originated and are used in this publication for directing the flow of announcement columns, namely that a record (which is the largest unit in an announcement column) is ended and that an announcement column continues on the next page or it is ended.

<b>Symbol</b>	<b>Interpretation</b>	<b>Symbol</b>	<b>Interpretation</b>
●●	End of a record in an announcement column	▶	An announcement column continues on the next page
■	End of an announcement column		

### Data Identification Codes

The data identification codes appearing in the next four tables are WIPO Standards. The first three of these tables contain codes universally known as Internationally recognized Numbers for the Identification of Data (INID) Codes. These Standards are, namely, WIPO Standard ST. 60 (*Recommendation concerning bibliographic data relating to marks*), Standard ST. 9 (*Recommendation concerning bibliographic data on and relating to patents and supplementary protection certificates (SPCs)*), Standard ST. 80 (*Recommendation concerning bibliographic data relating to industrial designs*) and Standard ST. 3 (*Recommended standard on two-letter codes for the representation of states, other entities and intergovernmental organizations*).

#### INID Codes For Marks

<b>Code</b>	<b>Interpretation</b>	<b>Code</b>	<b>Interpretation</b>	<b>Code</b>	<b>Interpretation</b>
(111)	Registration number	(220)	Filing date	(731)	Applicant's name
(151)	Date of registration	(511)	Symbol of the Nice Class	(740)	Representative's name
(210)	Application number	(571)	Description of the mark	(814)	Designated states

#### INID Codes For Patents

<b>Code</b>	<b>Country / Organization</b>	<b>Code</b>	<b>Country / Organization</b>	<b>Code</b>	<b>Country / Organization</b>
(11)	Patent number	(45)	Date of publication	(72)	Name(s) of inventor(s)
(21)	Application number	(51)	Symbol of the International Patent Classification (IPC)	(73)	Name(s) of holder(s) of patent. If in announcements concerning assigned applications or patents, this code represents the name of the assignor
(22)	Filing date	(54)	Title of the invention	(74)	Attorney's name
(23)	Date when action is to be taken, if in announcements for <i>Patent Applications Pending Grant</i> ; date from which status takes effect, if in <i>Applications Abandoned</i> or in <i>Patents Abandoned</i>	(56)	Documents cited in the examination	(75)	Name(s) of inventor(s) who is/are also applicant(s)

**(54) Title**

Oxidized proteins, their biological activity, and therapeutic and diagnostic measures, which are derived from the active mechanism, from the use of these proteins or from the inhibition thereof.

**(57) Abstract**

The present invention relates to substances, that inhibit the binding of oxidized proteins to CD36 or that inhibit functions of CD36 induced by the interaction of CD36 with oxidized proteins, and their use as a medicament for humans and animals.

## (54) Title

Association between ferroquine and an artemisinine derivative for treating malaria.

## (57) Abstract

The invention concerns a combination comprising ferroquine, in free base, salt, hydrate or solvate form, and an artemisinine derivative. The invention also concerns a pharmaceutical composition comprising ferroquine, in the form of one of its pharmaceutically acceptable salts, ferroquine hydrate or solvate, and at least one artemisinine derivative. The invention further concerns the use of such a combination for preparing a medicine for treating or preventing malaria. Finally, the invention concerns a kit for treating or preventing malaria.

## (54) Title

Methods of managing timberland

## (57) Abstract

A method of managing timberland generally includes planting a first tree crop in first and second rows each having tree spacing between adjacent trees and a first row spacing between the first and second rows. The method further includes planting a first planting of a first energy crop in the first row spacing. The method further includes planting a second tree crop in a third row having tree spacing between adjacent trees and a second row spacing between the second and third rows, wherein the second row spacing is different from the first row spacing. The method further includes planting a first planting of a second energy crop in the second row spacing.

**(54) Title**

Methods, immunoassays and devices for detection of anti-lipoalid antibodies

**(57) Abstract**

Compositions, methods and devices for the detection of anti-lipoalid antibodies and the diagnosis of disease, for example, syphilis, are described. In particular, a method for immobilizing a lipoalid antigen, comprising cardiolipin, lecithin, and cholesterol, on a solid support (such as a nitrocellulose membrane) is described. The ability to immobilize a lipoalid antigen on a membrane satisfies a long-felt need for membrane-based assay for the detection of anti-lipoalid antibodies. Also described are immunoassay devices for concurrently performing treponemal and non-treponemal tests for syphilis.

## (54) Title

Vehicle tracking

## (57) Abstract

The invention provides a motor vehicle having a wiring harness 14 and a vehicle tracking transponder 20. The transponder 20 and part of the harness are embedded in a hardened settable material 30 such that any attempt to separate the transponder 20 and the wiring harness will result in damage to the harness 14 which will prevent the vehicle from being driven. The invention extends to a method of and an installation kit for installing a vehicle transponder.

## (54) Title

Apparatus and method for visualizing music and other sounds

## (57) Abstract

The present disclosure relates to a system and method for visualization of music and other sounds. In one embodiment, the twelve notes of an octave are labeled around a circle. When notes are played, the intervals between the notes are visualized by displaying a line between the labels corresponding to the note labels on the circle. In some embodiments, the lines representing the intervals are color coded with a different color for each of the six intervals. In other embodiments, the music and other sounds are visualized upon a helix that allows an indication of absolute frequency to be displayed for each note or sound.
